Homework Grid
Class 1

How this document is to be used:

Here is 9 pieces of home learning to last over the half term. You can pick and choose the activity you would like to do each week. The grid is separated into 3 rows, with the first row collecting the most house points and the 3rd row collecting the least. Homework is to be submitted by the beginning of each week, **this can be done on paper or through Tapestry**. Your child only needs to do one piece of homework a week. Have fun 😊

Big adventures with little feet (local area)

Summer 1

Total Number
Of House
Points

What is your favourite place to visit in Cornwall? Have a trip there (or a trip down memory lane) and take some photos. Reception children can you write a sentence about what you like.

Pick a place around Cornwall and create a story based on it. You can make a story map and then write words/sentences to match each section.

Go and explore nature. Spend 10 mins a day for a week to look outside and see what minibeasts / birds you can find in your garden / local park. Can you make a list of what you see?

10

Think of your journey to school. What do you see along the way? Can you make a map of your journey?

Do you know what the capital city of England is? Can you find it on the map? Do you know of any landmarks there? See if you can answer these questions and make a poster/video about this.

Look at the changing seasons. Can you get ready for summer and plant some veg / flower seeds and watch them grow?

5

It was National Earth Day 22nd April. Can you 'make a pledge' of what you will do to look after the Earth? This could be to walk one day a week to school to save on driving.

To get moving and subitising numbers I want you roll a dice and see what number you land on. Then do an exercise of that amount e.g. 5 star jumps. Repeat a few times.

What is your favourite way to travel? Make a video explaining why you like to travel that way? Mine is either using my running shoes or bike to explore!
